What impressed me most about Omega Builders is... **EVERYTHING.**

From the first contact to the closing and beyond, the Omega team was flawless. The quality and attention to detail in the construction and finish of my home was just superb. I have yet to find anything that needs a warranty repair. From the floorplan to the attic and everything in between, Omega offers a huge bang for the buck.

Home Shopping Tip #3

Spend time in each community you are considering. Make a list of the features you like most, community amenities, nearby parks, travel time to places you frequent (work, schools, shopping, etc.) and take a few pictures to help you remember.
